# Working in Guildford and our Villages

It's been a tough year for many but the Government will continue to do what they can to make sure that people get the best deal possible whilst we rebuild our economy. Success can be seen both nationally and locally. The deficit has been cut by a quarter in the last 2 years, there are over half a million more people in work than this time last year, over a million new jobs have been created in the private sector and over 24 million hard working people will see their income tax bills cut. We have also seen thousands more people getting the cancer

treatment they need through the Cancer Drugs Fund, the NHS budget protected even in a time of tight spending, fuel duty frozen and the biggest ever cash increase in the state pension. However life still isn't easy in the current economic climate. What is clear is that people working in Guildford and Cranleigh continue to make sure that people get the services they need and rely on, and that we see new and enterprising ways of working by local businesses and our charities.

## A message from Anne

"I hear from a wide range of people on many issues. Please always feel free to pick up the phone to my office, drop me an email or write me a letter. I also welcome many groups to Parliament and my office can arrange a visit. We can usually organize a tour and an hour or so Q&A with me at the end. The youngest visitor has been 5 years old and the oldest over 90! Tickets for Prime Ministers questions and work experience opportunities in my office are always at a premium so do book early to avoid disappointment but I will always help if I can. I look forward to meeting up with you all soon."
