

The Choice we face in May

by Anne Milton

I cannot believe that it has been almost five years since I heard the news that I had been returned for the second time as your MP.

So much has changed since then – in Guildford, in Westminster and politics generally. But my sense of pride in being your MP and representing this wonderful area that we all share remains undimmed.

The most important thing for me to do is to thank all of you, the residents of Guildford and the villages, for making my job so fulfilling. I am fascinated to meet so many interesting, public-spirited and even courageous people on a regular basis. I am delighted to be able to help when I can.

The choice we face in Guildford is a simple one – to continue on this course with David Cameron as Prime Minister or to go back to the days of Labour.

A vote for any other party than the Conservatives is going to make the second of these far more likely.

We are now on the road to recovery and with a long-term economic plan we can look ahead to a brighter future for us all and our families.

Conservatives are asking for a term of majority government in order to finish the important work started in coalition on the economy, schools, healthcare and law and order.

Please let me know if there is anything I can do and I look forward to meeting you again soon.

Best wishes,

A handwritten signature in black ink, appearing to be 'Anne Milton'.
